

ENHANCED FILE TRANSFER™ (EFT™) ENTERPRISE

KEY RESULTS

Encrypted folders provide streaming encryption/decryption, enabling transparent, seamless file read/write, using AES 256 in CTR mode

Create automated workflows without scripting

Multi-factor authentication with SAML (WebSSO), RSA RADIUS, CAC, SMS

Automate transfers with folder monitor, scheduled transfers

Integrate with Active Directory, SharePoint, Microsoft Excel, SQL Server, and others

Easy administration and end-user interfaces

On premises, in the cloud, and hybrid options available

EFT modules allow you to purchase just the functionality you need now, and add advanced features as your needs change

AUTOMATED PROCESSES, SECURE AUTHENTICATION, INTUITIVE INSTALLATION AND ADMINISTRATION

Enhanced File Transfer (EFT) Enterprise is a customizable managed file transfer platform trusted by thousands of businesses worldwide for its unmatched simplicity and military-grade security.

EFT Enterprise requires a per server-instance license. There are no limitations on the amount of connections, users, bandwidth, or CPU utilization for the product. Unlimited client licenses are included in EFT Enterprise, and access to all modular features are available during the 30-day trial.

AUTOMATION SAVES TIME AND INCREASES EFFICIENCY

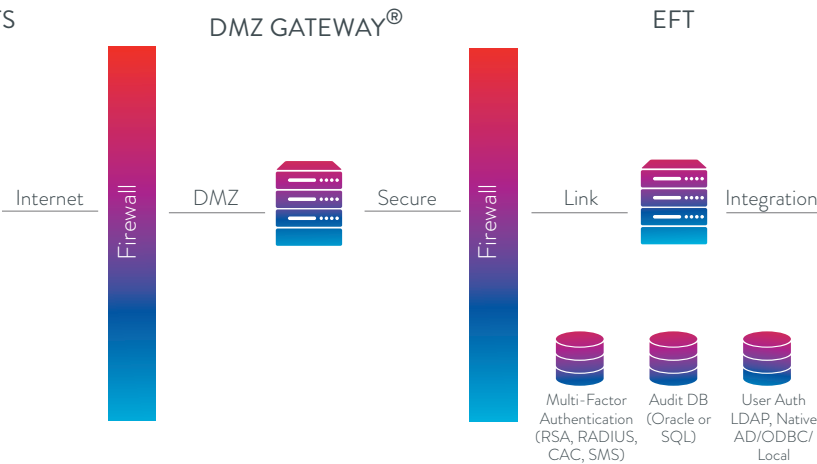

With operational efficiency in mind, Enhanced File Transfer™ (EFT™) Enterprise features quick and intuitive setup, advanced automation capabilities, real-time visibility into data transfers, and much more. EFT Enterprise automatically handles daily tasks, so you can turn your attention to tomorrow's business needs today.

FILE TRANSFER AUTOMATION MEANS SECURITY AND COMPLIANCE

EFT Enterprise has capabilities perfect for businesses that need automated secure file transfer software, high performance, and amazing load capacity. Some of our largest clients transfer thousands of files per second using EFT Enterprise.
